

IMPORTANT NOTICE

2026 Golf Season — Course Operations Update

June 15, 2026

Dear Members and Guests,

Please be advised that due to ongoing construction activities currently underway at our facility, the course will **not be available for full 18-hole play** during the **2026 golf season**.

The construction timeline has necessitated temporary modifications to course access and playability. We understand this is an inconvenience and sincerely appreciate your patience and understanding as we work to improve our facilities.

We will provide updates regarding course availability and any adjusted play options as construction progresses. Please check with the pro shop or our official communications for the most current information on which holes are in play at any given time.

We look forward to welcoming you back to a fully restored and enhanced 18-hole experience upon the completion of construction. Thank you for your continued support.

Sincerely,

Cedar Hills Course Management
